# Healthcare in Australia

More info

students](https://bupa.com.au/students)

We understand that healthcare can be confusing to new visitors. That's why we aim to provide the best advice and support to help you find what's right for your needs.

The Australian healthcare system is made up of two components, the public healthcare system administered by the Australian Government, known as Medicare and, the private healthcare system.

## The private healthcare system

The private system includes health insurers like Bupa, who come together with Medicare to provide Australians with access to medical services and health providers.

## The public healthcare system

### What is Medicare?

Medicare is Australia's public healthcare system - for all citizens, most permanent residents and applicants for permanent residency. It provides free or subsidised cover for certain healthcare services.

### Do I have access to Medicare?

If you're applying for a student visa, a current student or looking to extend your student visa you will not generally have access to Medicare.<sup>1</sup>

# Why choose Bupa Overseas Student Health Cover

It's our purpose that makes us different – helping our members to live longer, healthier, happier lives. We focus on your health, so you can focus on your studies. Overseas Student Health Cover (OSHC) helps ensure you'll be covered for the cost of medical treatments if you get sick or have an accident. The Australian Government requires you to have OSHC for the duration of your study period in Australia.<sup>2</sup>

When you lodge your visa application with the Department of Home Affairs you must show proof of your OSHC.

## Meet visa requirements

To be 100% sure you comply with the Australian Government's insurance requirements.

## Protect yourself from the unexpected

If the unexpected happens during your stay you can be covered for treatments and medical care.

## Unlimited emergency ambulance

We'll take care of the cost of all emergency transport and on-the-spot treatment by our recognised providers.

## No mental health benefit waiting periods

Your mental health is important to us, so you have no waiting periods to access psychiatric treatment and mental health benefits on your cover.<sup>3</sup>

## Convenience

Get peace of mind by choosing where and when you'd like to be treated at Members First and Network Hospitals.

## OSHC Extras

Choose Extras cover for services that OSHC doesn't cover, such as dental, physio, chiro and optical.

<sup>1</sup>Students from reciprocal health countries may have some access to Medicare, however may still require OSHC. Visit [humanservices.gov.au/individuals/services/medicare/reciprocal-health-care-agreements](https://humanservices.gov.au/individuals/services/medicare/reciprocal-health-care-agreements) to find out more. <sup>2</sup>Students from selected countries may have some access to Medicare, however may still require OSHC. # Important things you need to know about your health cover

## Switching from another OSHC provider

If you're changing from another OSHC provider to Bupa, you'll continue to be covered for all benefit entitlements that you had on your old cover, as long as these services are offered on your new cover with us, and there is no gap between your previous OSHC and your Bupa cover. This is referred to as 'continuity'.

When changing health funds, extras benefits paid by your old fund will be counted towards your yearly limits in your first year of membership with us. Any benefits paid by your old fund also count towards lifetime maximums.

For more information on switching please refer to the Important Information Guide; [bupa.com.au/oshc-info](http://bupa.com.au/oshc-info)

## What is covered?

### Hospital costs covered

With private hospital cover, you can choose to be treated as a private patient in either a private or public hospital. When admitted to hospital, in most cases you will be covered for in-hospital charges when provided as part of your in-hospital treatment including:

- Accommodation for overnight or same-day stays
- Operating theatre, intensive care and labour ward fees
- Supplied pharmaceuticals approved for the condition to be treated by the Pharmaceutical Benefits Scheme (PBS) and provided as part of your in hospital treatment
- Physiotherapy, occupational therapy, speech therapy and other allied health services provided as part of an inpatient admission
- Surgically implanted prosthesis up to the approved benefit on the Government's prosthesis list.
- Private room where available and clinically appropriate.<sup>1</sup>

### Medical costs covered

These are the fees charged by your doctor, surgeon, anaesthetist or other specialist for any treatment given to you when you are admitted to a hospital as an inpatient. This includes most inpatient diagnostic tests recognised by Medicare as medically necessary (e.g. pathology, radiology). We cover you for 100% of the Medicare Benefits Schedule (MBS). This is the amount determined by the Australian Government for a specific service for Australian residents. If your doctor or specialist charges more than the MBS Fee there will be a 'gap' for you to pay.

## What is not covered?

### Hospital costs not covered

Situations when you are likely not to be covered or to have large out-of-pocket expenses include:

- During a waiting period
- When you are treated at a non-agreement hospital
- For the fixed fee charged by a fixed fee hospital or a hospital that has a fixed fee service
- When you have not been admitted into a hospital and are treated as an outpatient (e.g. emergency room treatment, outpatient antenatal consultations with an obstetrician prior to child birth) you may not be covered

### Medical costs not covered

You will not be covered for:

- Medical services for surgical procedures performed by a dentist, podiatrist, or any other practitioner or service that is not eligible for a rebate through Medicare
- Costs for medical examinations, x-rays, inoculation or vaccinations and other treatments require d relating to acquiring a visa for entry into Australia or permanent residency visa
- Cosmetic surgery.

For more information on what is not covered please refer to the Important Information Guide [bupa.com.au/oshc-info](https://www.bupa.com.au/oshc-info)

## Waiting periods

A waiting period is the time when you are not covered for a particular service. It starts on the date that you enter Australia or the date that you start your membership, whichever is the later date.

If you receive treatment that falls within a waiting period, you will have to pay for some or all of the hospital and medical charges unless the treatment is classed as Emergency Treatment.

The following waiting periods apply to Overseas Student Health Cover:

Hospital cover	Waiting period
Pre-existing conditions, ailments or illnesses of a psychiatric nature	2 months
All other pre-existing conditions, ailments or illnesses	12 months
Pregnancy related conditions	12 months

The standard 2 months waiting period for pre-existing conditions, ailments or illnesses of a psychiatric nature is not enforced by Bupa on Overseas Student Health Cover until further notice.

### **Pre-existing conditions**

A pre-existing condition is any condition, ailment or illness that you had signs or symptoms of during the six months before you joined or upgraded to a higher level of cover with us. It is not necessary that you or your doctor knew what your condition was or that the condition had been diagnosed.

If you knew you weren't well, or had signs of a condition that a doctor would have detected (if you had seen one) during the six months prior to joining or upgrading, then the condition would be classed as pre-existing.

A doctor appointed by us decides whether your condition is pre-existing, not you or your doctor. The appointed doctor must consider your treating doctors' opinions on the signs and symptoms of your condition, but is not bound to agree with them.

### **Reducing your out-of-pocket hospital costs**

#### **Bupa Medical Gap Scheme**

The Bupa Medical Gap Scheme is designed to eliminate or minimise the amount you will have to pay. Where a doctor has signed up to the Bupa Medical Gap Scheme, and agrees to use it for your admission, you'll never have more than \$500 to pay out of pocket for medical treatment per doctor – we may even pay for the full cost.

Where the doctor isn't part of the Bupa Medical Gap Scheme, the doctor could charge any price and you'll need to pay any 'gap' (or amount above that we pay) in costs yourself.

For full details, see [bupa.com.au/medicalgapscheme](https://www.bupa.com.au/medicalgapscheme)

## **Your Extras Cover**

### **1. Members First Network**

Bupa Members First is an extensive network of healthcare professionals including dental, optical, physiotherapy, chiropractic and podiatry providers. OSHC Extras is available exclusively through this network with the benefit of 100% cover on the set number of included services (subject to yearly visit limits). This means you won't have to pay any out-of-pocket expenses when you visit a Members First Network provider for these services. OSHC Extras does not cover any services at non-Bupa Members First healthcare providers.

### **2. Extras waiting periods**

When you first take out or upgrade your health cover there's a period of time before you can make a claim on your new level of cover. This is common across the health insurance industry. You can't claim for services that you receive during this period at your new level of cover, even if you wait to submit the claim once the period is over. An initial waiting period of two months applies for OSHC extras cover.

### **3. myBupa app**

Getting around the health insurance system can be tough, so we've created 'myBupa' - an online hub that makes using your cover easier than ever. With its intuitive design and 24/7 access across laptop, desktop and mobile, it's the quickest way to make claims and manage your membership. You can;

- Claim online
- Get an estimate online before you get treatment
- Check your remaining limits
- Get your tax statements; and
- Manage your payments and payment information
